

20 March 2014

Hello everyone,

Now that the Town is entering the internet age with its own email list, the Select Board and other Town officials will no longer use this googlegroup to send Town messages and announcements. If you are not already on the **Town of Arrowsic email list**, please [subscribe here](#). (If you received recent messages about Flood Maps and tonight's education committee meeting, then you're on the list already).

This Arrowsic Googlegroup will continue to be an avenue for residents to share information and discuss Town issues. I find it useful to have this informal channel for communication with my neighbors and expect we'll continue to use it actively. As posted on the Arrowsic Googlegroup homepage: "The purpose of this group is to share town information, recycle and swap offers, ideas, and event announcements."

If you have any questions about the differences between the lists, don't hesitate to contact me by email or phone (both of which are listed under "Town Info" at www.arrowsic.org).

Regards,

Bill Savedoff, Arrowsic resident and Select Board member
