NOTICES:

The Selectmen have established an Ad-Hoc Committee on long-range planning. The main objective of this committee will be to develop a Capital Improvement Plan for the town. The following people have agreed to serve on this committee: Alice Sperling, Archie Porter, Howard Morrison, Abby Neal, Patty Olds, Millie Stafford, Ken Textor. If you are interested in serving on this committee, please contact one of the Selectmen. There will be several public hearings throughout the CIP process for those that are interested or want to provide input.

The Selectmen are looking for someone to assist the Fire Department in putting together an inventory of items at the Fire House. It would take a few hours on two evenings and would consist primarily of making a list as items are called out.
