Vehicle registration information

Coronavirus update:

The State Legislature has approved emergency legislation, declaring a state of emergency. The legislation provides for the extension of all vehicle licensing and registrations, new and renewals, for 30 days after the end of the state of emergency. This also includes yearly vehicle inspections. You may still renew all registrations online using the state online renewal service, although this is not necessary until 30 days after the end of the state of emergency. You will need your old registration, a credit card and a printer. It is anticipated that it will take longer than usual to receive your renewed registration and stickers.
